ADNAN SAKLI- Fed Reserve I.D 8217, U S A Treasury I.D 8217 & 8216
Bank of International Settlements Owner I.D 8217

Federal Reserve Account Identification, Adnan Sakli & 8217
Owner of the Bank of International Settlements Internationally,
The Underwriter of all the Global currencies and the holder of the debts.
The sole signatory of all Sovereign Obligations and rights of accounts.
Global Master Trader, the Sole signatory rights of the Reserve currency of A.T.S
(not Austrian Shillings) , but an independent internal currency.

Prime directive of Adnan Sakli & 8217
First authority of rights of sovereign as set by the Global structures
Under pre-existing structures under the state of Law and Civil rights.

The current problem of the Global Sovereign Financial system has reached the point of no return, and continues to get worse. The reason for the problem is many folds, all of which can be fixed under the legal rights of authority. I am the current title holder of all the stocks on the market internationally.

While many do not understand the problem, and the solution, there are those that do. The American people have been lied to and need to know it. As to my ownership it can be verified through the Fed Screen, Gray screen or Treasury Screen.

I agree to work with Naipaul Seegolam to get jobs back into the economy and help with the foreclosure crisis. I will gladly work with the Executive office and President; we will work out a solution to fix the economic problems of the United States under a joint agreement with myself and the officials of the United States of America.

We will restructure the funding of Social Security, Medicaid, Fannie Mae & Freddie Mac, Restructuring the failed Mortgages, formulating and structuring of Micro and Macro Business Credit Structures, cleaning up the environmental problems of the USA and other Nations, Rebuilding the corporate and banking structures, formulating the stability of the USA.

Sincerely,
Adnan Sakli- Fed ID# 8216 & 8217
